Tools for the Professional™

Think of RMI for all of your Ridgid tools and equipment!

RIDGID STEEL AND ALUMINIUM PIPE WRENCHES

RMI Part No.	Length
31020-14	14" Steel Pipe Wrench
31025-18	18" Steel Pipe Wrench
31030-24	24" Steel Pipe Wrench
31035-36	36" Steel Pipe Wrench
31040-48	48" Steel Pipe Wrench
31045-60	60" Steel Pipe Wrench
31100-814	14" Aluminum Pipe Wrench
31105-824	24" Aluminum Pipe Wrench
31110-836	36" Aluminum Pipe Wrench
31115-848	48" Aluminum Pipe Wrench

THERMOCOUPLE WRENCHES

Alloy steel open end HEX wrench.

RMI Part No.	Description
GK-382	Thermocouple Wrench, 3/8" x 7/16"

NON-SPARKING TOOLS

Beryllium alloy, non-magnetic, and corrosion resistant.

DRILL KITS

Various combinations of drills with handles in a plastic case. See part no. and description for kit make-up.

RMI Part No.	Description
G1939	(21) Gauging Drills #19 - #39; RMH-90 Reamer w/ Handle; Plastic Case
G4080	(41) Gauging Drills #40 - #80; RMH-90 Reamer w/ Handle; Plastic Case

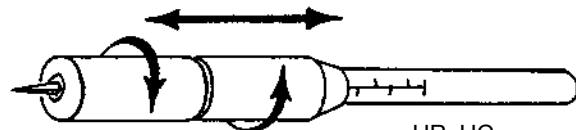

INDIVIDUAL REPLACEMENT DRILLS

RMI Part No.	Description
DH-19 thru DH-80	Individual Replacement Drills; #19 - #80 w/ Handles
RMH-80; RMH-90	Individual Replacement Reamer; #80 & #90 w/Handles

ADJUSTABLE REAMER KIT

Adjustable orifice reamer can ream, enlarge or measure orifices used on LP-Gas appliances.

HR, HC

RMI Part No.	Description
HR	Adjustable Reamer Kit - #51 to #80
HC	Adjustable Reamer Kit - #31 to #50

IMPERIAL EASTMAN FLARE TOOLS

RMI Part No.	Description
500-FA	"Rol-Air" Flare Tool-handles 3/16" to 5/8" OD Tubing
525-F	"Grabber" Rol-Air Flare Tool One Opening Fits All Sizes

FLARING & CUTTING KITS

RMI Part No.	Description
124-FA	Kit Includes 500-FA & 274-FC

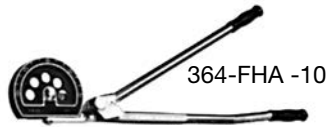

124-FA

LEVER TYPE TUBE BENDERS

Each tool bends one size. Heavy duty benders make smooth short radius bends up to 180°.

Style furnished for 1/4" and 1/2" O.D. tubing

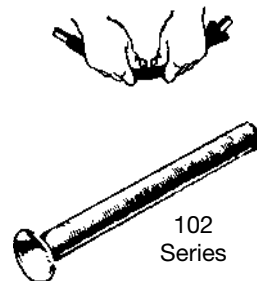

Style furnished for 5/8" and 3/4" O.D. tubing

RMI Part No.	Description
364-FHA-06	3/8" OD Tubing Bender
364-FHA-08	1/2" OD Tubing Bender
364-FHA-10	5/8" OD Tubing Bender
370-FH	1/4", 3/8", 1/2" OD Bender Triple

SPRING TYPE TUBE BENDER

For Hand Bending of Soft Tube, available in 3 sizes.

RMI Part No.	Description
102-E	3/8" OD Tubing Bender
102-F	1/2" OD Tubing Bender
102-I	5/8" OD Tubing Bender

102 Series

420

512

PAPCO TOOLS

PAPCO 420

Unmatched flexibility and efficiency for precision flaring. Swing release and hex clamp blocks rotate in dependable 45° single lap flare.

PAPCO 512

Clean cutting, durable, wide-roller tubing cutter.

RMI Part No.	Description
420	"Papco" Rothenberger Flaring Tool
512	"Papco" Rothenberger Tubing Cutter
51212	Replacement Cutting Wheel

945TH

PARKER FLARING TOOL
Swing Release Type For 3/16" through 3/4" OD Tubing.

RMI Part No.	Description
945TH	Parker Flaring Tool

IMPERIAL EASTMAN COPPER TUBING CUTTERS

127-FB

274-FC

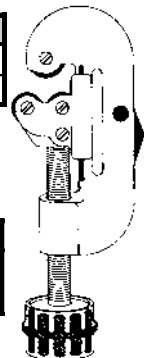

RMI Part No.	Description
127-FB	"Imp" Cutter: 1/8" - 5/8" OD Tubing
174-F	"Big Imp" Cutter: 3/8" - 1 1/8" OD Tubing
274-FC	"Hi-Duty" Cutter: 1/8" - 1 1/8" OD Tubing
75015	Cutting Wheel For 127-FB & 274-FC

CSST TUBE CUTTERS

RMI Part No.	Size	Description
TC-15	3/16" - 1 1/8"	Tube cutter No. 15
TC-152	1 1/4" - 2"	Tube cutter No. 152

TUBE CUTTER REPLACEMENT PARTS

RMI Part No.	Size	Description
FGP-E-5272	1 1/4" - 2"	Cutter Wheel for No.152
TC-15RB		Cutter Wheel for No. 15

GAS CONTROL TAP KIT

Kit provides taps to refurbish damaged or cross threaded gas connections. The three taps will rework standard thermocouple, main burner and pilot outlets. Thread gauge determines proper tap selection.

RMI Part No.	Description
TPK-1	Complete Gas Control Tap Kit
Individual Parts	
TP-11/32DL	Thermocouple Tap - 11/32" x 32 NS
TP-3/8-18	Main Burner Tap - 3/8" x 18 NPT
TP-7/16-24	Pilot Tap - 7/16" x 24 NS
TP-TG	Thread Gauge - 18 Blade

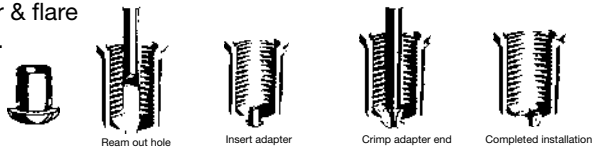

GAS-KIT MI-100K ORIFICE ADAPTOR KIT

Kit will renew 80-90% of all orifices to use higher BTU gases.

Instructions: Remove existing orifice. Insert into anvil. Ream out orifice in conjunction with handpiece. Remove orifice from anvil, insert adaptor. Place orifice on end of anvil. Use driving tool & strike with hammer to set adaptor. Insert crimping tool into anvil. Strike with hammer & flare adaptor.

RMI Part No.	Description
MI-100K	Complete Orifice Adaptor Kit
INDIVIDUAL PARTS	
MI-100	Adaptor
TL-061	Hand Piece
TL-062	Crimping
TL-063	Driving Tool
TL-064	Adaptor Crimping Tool
TL-070	Reamer
TL-074	Anvil

SERVICE TOOLS

GAS-KIT ORIFICE KITS

GK-201: Contains 10 each of standard cap orifices and 10 each of plug types to cover most conversion applications plus those "hard to get" taps and drills to refurbish thread connections.

GK-202: Contains 20 each of standard cap orifices and 20 each of 5 plug types.

RMI Part No.	Description
GK-201	Complete Orifice Kit, 10 each and taps and drills
GK-202	Orifice Kit, selected orifices, no taps or drills

To install specific orifice, use Drill and Tap as shown in chart below.

PILOT CLEANING PUMP

Heavy-duty construction for years of dependable service. Attaches quickly to hot water heater, furnace, stove and dryer. Fits easily into tool box or pocket. Eliminates the replacement of orifices. Useful in cleaning moisture, carbon and lint from orifices and in removing water from flooded lines. Includes fittings for 1/8" - 3/16" and 1/4" pilot tubing nuts.

RMI Part No.	Description
TL-095	Pilot Cleaning Pump Kit
EBK	Replacement Fitting Kit
