## Monessen - Fireside Finishings Recommended Mantel and Surround Reference Sheet

Recommendations based on clearance to combustibles listed in installation instructions. If space is left blank, there are no mantel recommendations at this time.

\* NOTE: Hearth must be cut to fit between legs of mantel or recessed to be flush with the floor. Marble set sizes are minimum size required to fit. Larger sets may be used depending on desired look. Additional cuts may be required.

This sheet is intended to be used as a quick reference guide only. Use the HHT Natural Stone Sizing Guide for specific details on dimensions to cut legs/hearths.
