Charred Cinder Collection (Pg. 5)

Headlining the Real Fyre Premier Series gas log sets, the new **Charred Cinder Collection** offers a dramatic fire presentation highlighting exposed embers, décor chunks and unique burnt detailing complemented with black embers. The model CNDO oak version leads the way with birch (CNDB) and split oak (CNDS) units following later this Spring. Available in three sizes (18,24,30), the Charred Cinder models are compatible with G4, G45 and G46 burners in natural gas and propane versions.

Flame Enhanced Logs (Pg. 5)

Building on the popularity of the optional Flame Enhancer Kit accessory that boosts flame and radiant heat, the new model **FE Flame Enhanced** Gas log sets include all the components for an enhanced set-up in one SKU. Multiple sizes available in five popular log styles (CHD, CHMJ, SDP, RDP, CHMBW), each set includes the Flame Enhancer Kit components (ceramic fiber-infused back log, aluminized steel panel and black embers) along with the regular logs for that size. These combinations offer more economical ways to provide flame enhanced performance in a new installation.

Measuring your fireplace for a Real Fyre Vented gas log set.

- 1 Front width (in inches)
- 2 Back width (in inches)
- 3 Depth (in inches)
- 4 Height (in inches)
- 5 Gas stub location
 - How far does the gas stub extend into the firebox?
 - What is the distance from the gas stub to the firebox floor?

For special sizing requirements exclusive to each burner system, refer to its particular Owner’s Manual.
