SUMMER / FALL TRAINING 2026

RANSOME FACTORY TRAINING

This course will review direct fired vaporizers and electric vaporizers. Proper sizing and installation will be discussed. Vaporizers require maintenance, we will go into detail on how to properly maintain your vaporizer. If you do not choose to do maintenance, we will then also discuss troubleshooting details to get your vaporizer back up and running.

- July 28th - 8:30AM - 4:00PM - Bensalem, PA (lunch provided)

DISPENSER DESIGN AND INSTALLATION

This class will review the design and installation of a dispensing station. We will review components to be used, different pumps and piping do's and don'ts. We will cover the start-up procedures and some troubleshooting. NFPA# 58 codes will also be discussed.

- August 4th - 8:30am - 3:30pm - [Lee, MA](#) (lunch provided)

NFPA COMPLIANCE

This class will primarily focus on NFPA# 58, NFPA# 54 and IFGC. We will review which codes cover applications and how to use the books. We will look at some violations and use NFPA# 58 for classroom activities. A copy of NFPA# 58 2020 edition will be provided to students to use in class. Recommend students to bring their own code books.

- August 5th - 8:00am - 12:00pm - [Lee, MA](#) (lunch not provided)

RH PETERSON FACTORY TRAINING

An RH Peterson technical trainer will provide information on the different burner types they manufacture. He will review tips and things to be aware of or avoid during installation, to include some common installation caused issues. Troubleshooting and diagnosing issues will also be part of this training class. We will display some of the most common burners installed today.
